

OUR MISSION

Youth Empowerment For the vulnerable

While providing children and youth in Kenya with access to education and training, our programs use the universal languages of art and play to instill kindness, compassion and curiosity. We see Kenya's new generation as facilitators of positive change and our mission is to support them with interpersonal, mindset and soft-skills to bring about positive change for themselves and their communities.

We fulfill our mission through our 3 pillar approach.

1ST PILLAR

Direct Youth Support

We provide...

- Education and Training
- Mentorship and Counseling
- Soft- and Life-Skills

Our main activities and programs:

- Fly High: High-School Bursaries for vulnerable youth to access secondary schools.
- YUMP (Youth Unleashed Mentorship Program): Supports youth in high-schools with emotional wellness, through group work and individual counseling.
- Beyond School Holiday Camps: Gives children a place to connect, play and self-express, while they learn critical soft- and life-skills.
- Chapati JOY Festivals: One day events to uplift, inspire and share love with children in institutions.

2ND PILLAR

Youth Support via Partners

We work closely with and assist in the educational practices and needs of the nursery and primary school Korando Educational Center.

Furthermore, we partner with and strengthen other grassroots organizations to reach and assist an even larger part of the Kisumu community.

We support our partners with:

- Capacity Building such as trainings, workshops and seminars.
- Networking opportunities.
- Human, financial and technical resources.

Some of our partners:

- Homeless of Kisumu
- Armstrong Woman Empowerment
- Dewo Ngima
- Jijenge Youth
- Background Angels
- Fablabs Winam
- LakeHub

3RD PILLAR

Advocacy for Children's & Youth Rights

We work closely with the local government to ensure long lasting and sustainable change.

Our work includes:

- Advocacy for the importance of increased government assistance to support social and educational programs in the communities.
- Advisory on public policy.
- Raising awareness on Mental and Emotional health, GBV, Children's Rights etc. by holding International Days to bring awareness around such topics.
- Networking local stakeholders via public events and conferences.
